PROFESSIONAL SUMMARY

BFA in Film and Television from NYU (August 2026). Gameplay and systems programming in Unity (C#), with QA, bug reproduction, and Git workflow on a student game (6 students plus 2 leads). Familiar with Unreal Engine. Sound design and implementation in Unity and Wwise; production audio, ADR, dialogue edit, and mix from NYU.

EDUCATION

New York University — New York, NY
Bachelor of Fine Arts in Film and Television — August 2026

PROJECTS

Group5 FPS — *Lead Programmer*

- Led three programmers on a Unity FPS (6 students plus 2 leads) built in weekly sprints from a design doc and a technical doc: assigned work by strength, took a systems task, met about 3x/week with Discord between meetings. The lead designer came to me for tools and mechanics.
- Owned version control and QA: reviewed each programmer's code and tested it the night before, wrote repro notes, then held 1:1s, met with the designer and group, and merged to main on GitHub. Shipped MVP in 8 weeks with biweekly professor reviews.
- After a merge broke main (engine version mismatch), set a rule that nothing merges without my sign-off and kept a backup branch.

MazeWeb — *Designer / Programmer / Sound*

- Random maze generation and game logic in JavaScript, shown in a handheld-style site shell (menus, volume sliders, reset). Unity WebGL builds the 3D maze in-engine from the JavaScript maze data (SendMessage); React (Vite) for more UI.
- Original music stems mixed in JavaScript (ambient, special, exit) by walkable-tile path distance, so the mix signals where special tiles and the exit are. Walking SFX in Unity, timed to how long the player walks, with slight variation.

Short Film — *Sound Design / Mix*

- Dialogue edit (boom vs lav, L/J cuts), sound design and room tone on MOS, mix/master and music after picture lock.
- Picture cut in Premiere with the director. Script supervisor: continuity, production-sound notes, location wilds at wrap, DIT and dailies; suggested extra coverage on set. Credits added; color by the cinematographer; shipped.

NYU Sight & Sound: Studio — *Production Audio / ADR*

- Live multi-cam: wireless lavs into a live mixer, monitor and mix from the script (dialogue, FX, music), recorded split tracks.
- ADR in Pro Tools with picture: highlighted scripts, named files, talent in the booth.
- Rotated through camera operator, stage manager, technical director, assistant director, director, and lighting director on live shoots; also ran casting calls and rehearsals and designed sets.

EXPERIENCE

Video Editor — September 2025 - November 2025
Self-Employed — New York, NY

- Cut with a director and client through feedback; delivered roughs and finals on schedule.

2nd Assistant Camera — March 1-4, 2025
Ants Hill (thesis film) — Harlem, NY

- Assisted the 1st AC and cinematographer: DIT, batteries, slate, lens changes, video village.

Grip — November 24, 2024
Ti Blan (television pilot) — Brooklyn, NY

- Assisted camera; lighting setups with gaffers and grips; load-in/load-out; comms and set safety.

Front End/Stocking Assistant — March 2020 - 2022
Kroger — Great Bend, KS

- Customers, inventory, opening and closing; worked with the department to finish daily work.

SKILLS

Technical: Unity · Unreal Engine (familiar) · C# · C++ · OOP · JavaScript · React · HTML · CSS · Git · Version control · QA · Bug tracking · Wwise

Audio: Sound design · Implementation · Mixing · Dialogue edit · Production audio · ADR · Pro Tools · Reaper · Logic Pro · Ableton

Other tools: Premiere · DaVinci Resolve · Avid · Microsoft 365

AWARDS & HONORS

Phi Theta Kappa (2022). Newgrounds Frontpaged (2021, 2026). Game Audio Conference Attendee (2021, 2025).
